Section C:
Comprehensive Listing ..... C1 - C230

Section D: Request Form D1

Section A: Introduction

How to Use this Report

The Temporary Nursing Services In Massachusetts - Price Filing Report is a consumer's guide to temporary nursing services in the Commonwealth. Based upon data compiled from detailed surveys conducted by the Massachusetts Rate Setting Commission, the report provides comparative information on the price of temporary nursing services throughout the state.

The report lists by region the services offered by each temporary nursing services agency, as well as the charges, the amount of the charge that is paid to medical personnel, and the amount retained by the agency as its administrative component.

The report can be used by buyers of temporary nursing services to identify companies within their regions which offer attractive prices and terms. Since both the prices and other terms offered by temporary nursing service agencies vary considerably from company to company, these factors, along with the quality of service provided, can be used to select cost effective sources of temporary staffing from among the hundreds of companies in business.

Medical personnel who may wish to be employed by temporary nursing services also can use the report as a guide. For example, medical personnel will be able to identify pay rates and terms offered by prospective employers, as well as other relevant information, such as the amount of the total charge which is passed on to the employee.

The report is organized into three main sections. This first section (Section A) contains information on how to use the report, an explanation of terms, and the Regional Outlier Limit table (see PARAMETERS on page A2 for a description).

The Price Listing section (Section B) is a regionalized quick-reference list of temporary nursing service companies. For each region, and for each service, the agencies are listed from lowest to highest according to the prices they charge. Also included is the average price and price limit for each region. To use the Price Listing, first find the listing for your region (e.g., Boston Metro), then identify the type of medical personnel you are interested in (e.g., RN, LPN, Aide), and, finally, locate the type of facility to whom that service is provided (e.g., Acute Hospital, Nursing Home, etc.).

Once you have identified companies in which you are interested, go to the alphabetized Comprehensive Listing (Section C). This section contains detailed information about each company, including service area, a breakdown of prices, discount and premium charges, and other terms.

Section A: Introduction

The information presented in each section of this document was reported to the Rate Setting Commission on an individual basis by each temporary nursing services company. The Commission has made every effort to report this information accurately and completely. Questions regarding specific pieces of information, however, should be directed to company officials.

Before using this report, please take a moment to carefully review the explanation of terms presented in alphabetical order below and on the following pages.

Explanation of Terms

The following definitions apply throughout the report and are consistent with the provisions of Massachusetts Rate Setting Commission regulation 114.3 CMR 45.00 Temporary Nursing Services. For more information, a copy of the regulation can be obtained from the State Bookstore, State House, Room 116, Boston, Mass. 02133 (617-727-2834), or from the State Bookstore, 21 Elm Street, Springfield, Mass. 01103 (617-733-7876).

ADMINISTRATIVE COMPONENT (see PRICE INFORMATION)

ESCALATION LIMIT FOR
THE ADMINISTRATIVE COMPONENT (see PARAMETERS)

FACILITY TYPES

For each temporary nursing services agency, the types of facilities to which it reported offering services are included in this report. The types of facilities to which agencies reported providing service are as follows:

Acute Hospital
Community Health Center
Detoxification Facility
ICF-MR (Intermediate Care Facility
for the Mentally Retarded)
Non-Acute Hospital
Nursing Home
Rest Home
Residence for the Mentally Retarded
Surgicenter (Ambulatory Care Surgical Center)

Temporary nursing service companies may provide staff in other settings (e.g., to home health care agencies or schools), however, these settings for temporary nursing services are not currently subject to regulation.

PARAMETERS (PRICE LIMITS)

REGIONAL OUTLIER LIMIT: The Commission has established a regional maximum price for each type of personnel in

each type of facility (see the Regional Outlier Limit table on page A5). This regional outlier limit, or cap, applies to the standard rates (i.e., weekdays from 7:00 a.m. to 3:00 p.m.) charged by each temporary nursing services company. The REGIONAL AVERAGE is also reported for each category.

ESCALATION LIMIT FOR THE ADMINISTRATIVE COMPONENT: With regard to changes that a temporary nursing services company may wish to make in its administrative component, increases are limited to a rate of escalation determined by the Commission. For changes occurring during 1989, the administrative component may increase by no more than .49% per month from October 1, 1988 through December 31, 1989.

PAY RATE (see PRICE INFORMATION)

PERSONNEL TYPES

This report covers nursing personnel who are licensed, such as registered nurses (RNs) and licensed practical nurses (LPNs), and unlicensed personnel, such as aides, assistants, and orderlies. Temporary nursing services may offer other types of medical personnel (e.g., respiratory therapists or technicians), however, these personnel are not covered by this report.

PRICE INFORMATION

Several aspects of the price charged by each temporary nursing service are reported. For simplification, some companies reported in whole dollars, however, their actual figures for each service may include unrounded amounts.

PRICE (or TOTAL PRICE): The amount charged per hour to a facility on weekdays for a 7:00 a.m. to 3:00 p.m. shift. In instances where the initial price filing for a particular service was found to be above the regional outlier limit, an adjustment has been made by the Commission to the total price that may be charged by the temporary nursing services agency for that service. In these cases, the total price has been decreased to the regional outlier limit, or cap, and the pay rate and administrative components have been omitted in this edition of the report. The rates indicated in this publication are effective January 23, 1989 (February 1, 1989 for companies which must decrease their charge to comply with regional outlier limits). This marks an end to the moratorium on rate changes which began on November 1, 1988. The rates reported in this document are subject to change according to the parameters spelled out in regulation 114.3 CMR 45.00 Temporary Nursing Services (see PARAMETERS beginning on page A2).

PRICE INFORMATION (continued)

PAY RATE: The amount per hour paid in gross wage to medical personnel.

ADMINISTRATIVE COMPONENT: The portion of the price per hour which does not include gross wage paid to medical personnel. The administrative component includes payroll taxes and benefits for medical personnel, all overhead costs, profits, and all other expenses. The TOTAL PRICE minus the PAY RATE always equals the administrative component.

SUPPLEMENTS TO PRICE AND/OR PAY PROFILE: This information includes any deviation in price and/or pay rate from the standard reported for weekdays from 7:00 a.m. to 3:00 p.m. This includes discounts (e.g., for prompt payment or volume business), premiums (e.g., for late cancellation or late payment), shift differentials or other adjustments such as extra pay for special skills or length of service. Any adjustments to the standard price must be established in a written agreement between the temporary nursing services company and the purchasing facility.

REGIONS

Each individual office of a company is assigned to a region based on its reported service area. If the service area of an office overlaps two or more regions, it is assigned to the region covering the majority of its service area. The Commission has grouped temporary nursing service agencies into four regions, as follows:

Region I: Boston Metro Essex Co. Middlesex Co. Norfolk Co. Suffolk Co. Plymouth Co.	Region III: Central Massachusetts Worcester Co. only
Region II: Southeastern Massachusetts Barnstable Co Bristol Co. Dukes Co. Nantucket Co.	Region IV: Western Massachusetts Berkshire Co. Franklin Co. Hampden Co. Hampshire Co.

SUPPLEMENTS TO PRICE AND/OR PAY PROFILE (see PRICE INFORMATION)

TEMPORARY NURSING SERVICE IDENTIFIERS

The name of each temporary nursing services agency appears as it is registered with the Massachusetts Department of Public Health, along with its registration number. Some companies have several offices and each is listed separately. However, if an office is solely a recruiting center or other ancillary site, it is not included in this report. Only those providers of temporary nursing services who completed and submitted the required Price Filing Form on or before December 1, 1988 are included in this edition of the report.

TOTAL PRICE (see PRICE INFORMATION)

Regional Outlier Limit Table

REGION	FACILILTY TYPE	PERSONNEL TYPE	OUTLIER LIMIT
I: Boston Metro	Acute Hospitals and Non-Acute Hospitals	RN	$ 38.48
		LPN	$ 32.87
